Report of Superintendent of Schools

Five schools have been maintained during the past year as usual. We have been fortunate in securing good teachers and much interest has been shown by the parents. In some schools good attendance has been shown, while in others the opposite has been true. Every time a child is kept out of school, it not only wastes the money spent by the town, fifteen per cent of the children being absent each day, but it gives us so much less money from the state funds.

Parents must help to secure best results, but teachers can do much in getting good will, not only of the children, but of parents, which is an important factor in some districts. Excellent work has been done in geography, history and language.

One tenth of the literary fund which amounted to twelve dollars was spent mostly for maps. Three were purchased for South and two each for County, Grout Hill and Tracy. The remainder was spent for five copies of Nichols Topics in geography for use of teachers next year.

The small libraries in the different schools have been of much use under the direction of some of the teachers. Some have also used the town library and directed the reading out of school. A number of standard poems and prose have been studied by the older pupils with excellent results.

We have seen what can be done in the line of nature work in the past few years by those teachers that make especial effort in that direction. One doing work with flowers, one with birds and so on. One teacher used the books on agriculture with

good results, combining nature and language work with arithmetic.

We need trained teachers. Our children can do anything any children can do if they only have efficient leadership. That has been proved. Those who live in the country are often depressed with a sense of isolation and the routine becomes monotonous unless the mind is trained to find and enjoy companionship with good books and strength and solace in communion with God and nature.

REPORT OF LIBRARIAN

The last twelve months have been busy ones in our library. We have to have all the shelf room possible when working on the card catalog, so began by sorting out the magazines. These we have given away to any one who called for them. We still have a few left and the library will be open on town meeting day for the purpose of giving these away.

In the summer we had a "Bee" and all who could came and helped rearrange the books on the shelves according to the Dewey Decimal system. We had a picnic under the trees and all had a good time. The arrangement of the books is finished and the cards for the fiction and juveniles written. We could not make the \$25.00 appropriated by the town in 1911 quite cover all expenses, and you will see by the treasurer's report that there is a deficit of \$15.93. We hope the town will vote to raise this sum at the annual meeting in March, for the catalog has greatly increased the value and usefulness of our library. Please notice also in the report of the special fund for card catalog that there is no charge made for work; only supplies were paid for, all the work was given by friends, and special

thanks are due Mr. Osgood Perry who worked on the cards all summer.

We have begun a catalog of the pictures of our old residents, so that in years to come when they are no longer in the memory, visitors and those interested will know who they were.

A file of the town reports is nearly completed, but we still lack years 1882, 1883, 1892, 1908. If any one has an extra copy of any of these and would like to give it to the library it would be greatly appreciated.

We have a full set of all the obtainable U. S. Farmer's Agricultural bulletins. If there is anything you wish to look up in regard to agriculture, we would be glad to help you. These bulletins are authority on their subjects. The agricultural papers, Country Gentleman and Tribune Farmer, have been added to our magazine list. Both are good. Our magazines for 1913 are as follows :

Subscribed to by library—Monthly : McClure's, Ainslee's, Munsey, Century, Ladies' Home Journal, McCall's, Woman's Home Companion, Technical World, Cosmopolitan, Everybody's, Harper's, St. Nicholas and Popular Mechanics.

Weekly : Youth's Companion, Christian Herald, Tribune Farmer, Outlook, Country Gentleman, Scientific American.

Given by friends : Review of Reviews, Independent, World's Work, Ladies' World, Woman's Magazine, American, Pictorial Review, Good Housekeeping, Boston Cooking School, American Motherhood, Saturday Evening Post.

Eighty-six new books have been added during the year, 48 given by friends and 38 purchased by the town. The circulation of books and magazines has been 2423, making a weekly average of 45+. We have 61 names on our cards. A large number of books have been repaired and four that were entirely worn out replaced.

Twenty-five dollars was given us from the proceeds of the play "Plain People." Part of this sum was used for new books and part is held for future use.

It is the desire of the trustees and librarian to make our library a power for good that will be felt all over the town, and if arrangements could be made for a book and magazine station at South Acworth and East Acworth it would help further that aim. Can we not accomplish that during 1913?

With thanks to all friends who have given books and magazines and the help without which we could have done so little.

This report is respectfully submitted,

HELEN ANITA NEAL, Librarian.
